

evo* > the main european events on evolutionary computation

evo*²⁰¹¹ registration

27-29 april 2011
torino – italy
www.evostar.org

early registration
* until 1 march
late registration
* 2 march-20 april

evo* 2011 brings together Europe's premier events in the field of evolutionary computing, namely the three **eurogp**, **evocop** and **evobio** conferences and twelve application events collectively entitled **evoapplications**, in addition to **evophd**, the 6th European Graduate Student Workshop on Evolutionary Computation. A single registration allows access to all events with approximately 200 papers presented over three days. The friendly and informal atmosphere at evo* events is intended to foster beneficial friendships and longer-term collaboration across continents and across research generations.

An early discount is given to all registrations received by 1st March 2011, and you are encouraged to take advantage of the lower rates. The organisers work hard to minimise conference fees, and the 2011 registration rates have been fixed at the same level in Euros for many years now, meaning a net decrease in cost. Conference registrations are available on a first-come, first-served basis, with the organisers reserving the right to limit places if necessary. Registrations close on 20th April, a week before the events commence just before the Easter weekend. Half price student discounts are available for those registered at appropriate academic organisations, who are able to prove their student status if asked to do so.

Please note that payment is charged in British pounds sterling at the rates shown ahead, with Euro fees shown as an approximate guide. A different Euro rate may be charged by your credit card company.

what registration includes

The *single* registration for all 16 evo* events includes:

- * Attendance at all evo* sessions – three conferences & twelve application events & evophd graduate student workshop;
- * One printed and bound copy from the conference proceedings published by Springer in the LNCS series (one to be chosen by registrant with additional copies available to purchase);
- * A CD-ROM including electronic content of all papers in the LNCS volumes for evo* 2011 (which includes PDF full-text search functionality, author index and bibtex files);
- * Lunches and coffee breaks at the conference venue over three days;
- * One ticket for the conference reception;
- * One ticket for the conference dinner (additional tickets available to purchase).
