submission deadline
* 30 november 2011

evoapplications is the specialist conference on a range of evolutionary computation topics and applications.

12 tracks

evo**comnet**

Nature-inspired techniques for telecommunication networks and other parallel and distributed systems

evo**complex**

Algorithms and complex systems

evo**fin**

Evolutionary and natural computation in finance and economics

evo**games**

Bio-inspired algorithms in games

evo**hot**

Bio-inspired heuristics for design automation

evo**iasp**

Evolutionary computation in image analysis and signal processing

evo**num**

Bio-inspired algorithms for continuous parameter optimisation

evo**par**

Parallel and distributed infrastructures

evo**risk**

Computational intelligence for risk management, security and defence applications

evo**stim**

Nature-inspired techniques in scheduling, planning and timetabling

evo**stoc**

Algorithms in stochastic and dynamic environments

evo**translog**

Evolutionary computation in transportation and logistics
